

FREE* access to Autodesk software, curricula, training and certification for New York middle schools and high schools.

In an effort to bring industry-leading 3D design software to New York middle schools and high schools, Autodesk, Inc. is offering the Autodesk's Design the Future program.

Autodesk launched the Design the Future program in response to the [White House ConnectED initiative](#) to provide secondary schools with a wealth of resources to inspire students in science, technology, engineering, digital arts, and math (STEAM) subjects, which includes:

Free* access to Autodesk 3D design software ([Autodesk Education Master Suite](#) and [Autodesk Entertainment Suite Ultimate](#))

- * Free project-based curricula (aligned to ISTE and many state standards)
- * Free eTraining for educators offered through Certiport
- * Free certification for educators offered through Certiport

Register today to help your school bring next generation resources into the classroom. Your school is eligible to begin with 125 software licenses with three years of access to products that are widely used by leading designers, engineers, and architects, including Autodesk® AutoCAD®, Inventor®, 3ds Max®, Revit®, and Maya®.

Individual Licenses for Students and Educators

Additionally, students and educators can gain free* access to Autodesk software for individual use at our Autodesk Education Community. Download here: www.autodesk.com/education.

* Free access to Autodesk software and/or cloud-based services are subject to acceptance of and compliance with the terms and conditions of the license agreement or terms of service that accompany such software or cloud-based services. Software and cloud-based services provided without charge to Education Community members may be used solely for purposes directly related to learning, teaching, training, and research and development that are part of the instructional functions performed by a primary or secondary educational institution or any degree-granting or certificate-granting institution or any learning, teaching, or training facilities. Such software and cloud-based services shall not be used for commercial, professional, or for-profit instructional or any other purposes.

Autodesk® AutoCAD®, Inventor®, 3ds Max®, and Maya® are registered trademarks or trademarks of Autodesk, Inc., and/or its subsidiaries and/or affiliates in the USA and/or other countries. All other brand names, product names, or trademarks belong to their respective holders.

Autodesk reserves the right to alter product and services offerings, and specifications and pricing at any time without notice, and is not responsible for typographical or graphical errors that may appear in this document.
