I am writing this in anticipation of going to the NYLA/SSL conference this weekend. I am hoping to learn some great things to write for the next newsletter. We will be sending out a Summer Professional Development Calendar once we have it finalized. I have included an MLP link to a Noodle Tools training on August 16th and 17th. We are hoping that librarians can bring a teacher from their school and use the workshop time to collaboratively plan a research project for the upcoming school year. This may be a great opportunity to get teacher buy-in for Noodle Tools. ~Betsy
